

"Never doubt that a small group of thoughtful committed citizens can change the world. Indeed it is the only thing that ever has."

Barbara was one of the driving forces in the formation and early development of the **FACES** organization. Her passion and willingness to stand up and speak out for the rights of families has done much to bring attention to the need for education and support. Barbara has been working many years in the field of mental health and we are sure that she will continue to share her compassion and willingness to listen for many years to come. We look forward to continuing to share her friendship and support.
